Stanford University
Medical Center
Department of Genetics
P a l o A l t o, Calif.

Dear Joshua,

I have been very pleased to hear that Lin Moses has managed to find a person to give the first part of the course in Human Statistical Genetics, and that this person is Walter Bodmer. I will have to get a visa, which should not be too difficult nowadays, and therefore hope to be in Stanford for three weeks starting with July 15.

I understand Lin Moses is willing to take on himself the trouble of looking for a house for me. As I will be alone this will not be difficult, though a room in a hotel might be a little too expensive. If you have any good advice I will be happy to know.

Please let me know if you and Ester have any specific wishes of things from Italy.

We have enjoyed your descriptions of Japan and I hope to hear more. Too bad Alba cannot come, but the stay is short, the journey is expensive and the children need at least one parent.

./.

ALLI

Can you give me a table with smoking
rights in some part of your department?

I am looking forward to visit with you
and Esther again.

As ever

A handwritten signature in cursive script, appearing to read 'Luca'.
